Aperitifs, grilled fish with lemon, sushi, asparagus gratin, Comté cheese. Serve at 10°C. Cellaring potential : 3 years.

Vineyard

Plots with the best balance between soil, plant and microclimate are selected: North-facing hills for this wine. Control of yields via optimal management of nutrition and de-budding. The Versant Sauvignon vines are situated on sunny north-facing slopes near Puichéric (Languedoc-Roussillon). The soil is made up of clay-limestone marl which retains humidity so the plant develops well.
